

**Food service management simplified.**

### SOFTWARE MODULES

**NUTRIKIDS Point of Sale (POS)** is designed to bring districts easy to use, straight-forward software. It will provide you with all the speed, efficiency and information handling power needed for real accountability. Increase participation, productivity and profitability.

.....

**NUTRIKIDS Free & Reduced Application Processing** module quickly processes free and reduced meal applications, allowing you to easily retrieve valuable information and print reports. Automatically approve applications based on the most current federal guidelines and complete verification requirements accurately.

.....

**NUTRIKIDS Menu Planning & Nutritional Analysis** is trusted by more than 8,600 school districts across the country and used by most state agencies to conduct administrative reviews. Accurately and efficiently meet nutrition standards, dietary guidelines and your district's Wellness Policy<sup>1</sup>. Further streamline your operation with our popular program add-ons including Production Records and Recipe & Menu Costing.

<sup>1</sup>USDA-approved for use in certification of compliance with National School Lunch Program meal pattern requirements and for nutrient analyses required in the school meal programs, including the nutrient analysis portion of six cent certification.

.....

**NUTRIKIDS Perpetual Inventory** provides improved control and cost management for all of your inventory procedures. This full feature program takes you through the entire process, from the bidding and purchase steps, right through to the warehouse. Easily track and manage products, while reducing inventory shortages and over-ordering. Track inventory receipts, withdrawals, transfers, and physical inventory counts. Generate comprehensive, streamlined reports by district, site and item.
